To Bankers Needing Perfect Security Against Burglars.

BEARD'S PATENT ROUND SCREW DOOR BURGLAR PROOF SAFES!

The only reliable and accure Burglar Proof Safe, it being perfectly Powder Proof and Wodge Proof, and the great strongth of the double threaded sersew is in marked contract when compared to the botte in a square door safe, there being ten to one more strength in the serses thread.

The object of Burglar Proof Safes being to keep out thieves and burglars, and the fact that powder and other explosives and wedges are used for the purpose of getting into afes, it is all important that there were modes of operation should be guarded against to a Burglar-Proof Safes. This has been secondished in our Burglar-Proof Safes. Door Safe, it being impossible to blue it open with powder or other explosives, as by the turning and fitting of the door in a lathe, and grinding in with emery and oll: it is made not only Powder and Stire Gipereine Proof, but is Air Tights; it is also impossible to wedge it open, from the fact of there being no Long Bildes is be given given the modes of the door.

The sampe door cause the mode Powder Woodle would be revenit the revolving of the door.

norm securely, as the imperfections from wedging would prevent the door.

The square door cannot be made Powder Proof, nor can it be made Wedge Proofs whatever interlocking decices may be used for the purpose; this being a fact, it is a failure in resisting bergint, as has been too well and too often prevent in the many and great looses, escaland by the use of powder or other explosives and wedges, to obtaining access to the fequent Boor Safes, so-called Ronglar-poof.

The Round Foor Safe has son-offen from resons inside than same size equare door, there being about three inches of the depth of the Square Door Safe taken up by the boils and having well three forms furnish greater capacity, combined with perfect assuring for the same money.

The Round Screw Door Cheef the nucle larger than cheets in some size safes of other
